PMI RESEARCH AGREEMENT made on 6 January 2011 between WorkingWell Ltd ("***the Publisher***")

AND

Name: Sandra Goncalves ("the Researcher")
Email: sandraisabelgoncalves@gmail.com

Now it is mutually agreed between the parties hereto as follows:

The Publisher grants to the Researcher the privilege to reproduce the Pressure Management Indicator for research purposes only (the "***PMI***") subject to the following conditions to which the Researcher hereby agrees:

1. The Researcher recognises that s/he does not own the copyright of the PMI, and that the PMI is to be used for his/her own research purpose only, and never under any circumstances for any commercial, or other use unspecified in this agreement, unless the Researcher first obtains written permission to do so from the Publisher.

2. The PMI is for one research project only as agreed with the Researcher and any further use of the PMI must first be agreed and formal permission given by the Publisher.

3. When using the paper & pencil version of the questionnaire, a copy of the data must be provided to the Publisher on a disk file in a format suitable for use with a standard statistics, database or spreadsheet programme. We do not need details of the subjects' names or organisation but would like all other demographic information, together with the individual items and subscales. We would also encourage the Researcher to publish their findings, and if possible, provide a link to the Publishers website (www.workingwll.co.uk).

4. The Researcher's PMI data will be added to the Publisher's normative database of over 50,000 people and used for statistical purposes and general reporting. The data will not be identifiable and will not be given to any third party.

5. The PMI must be used in its entirety and permission will not be granted to use a subset of the questionnaire.

6. The Researcher shall ensure that the following notice shall appear on the cover page of each copy of the PMI:

© Copyright Stephen Williams, 2000. Permission to reproduce this material has been given by the publisher WorkingWell Ltd, 80 Fleet Street, London, EC4Y 1ET, UK. All rights reserved.

7. The Researcher agrees to exercise the utmost vigilance in protecting the Publisher's copyright privileges on the PMI. In particular the Researcher guarantees that unauthorised persons shall not be given access to any of these materials. Unauthorised use by any other third party is strictly prohibited and is in breach of this agreement and copyright regulations.

8. If for any reason it is necessary for the Researcher not to continue with the research or to delay it materially, s/he will inform the Publisher of the discontinuation or delay as soon as possible.
