

ISMT Repository Psychology Database - Application for Data Use

The Psychology Database of the ISMT Repository provides scientific usage files (SPSS) with data from studies and analytical codes conducted by ISMT researchers. For data protection reasons, the datasets and analytical codes can only be used after signing a declaration regarding the use of the data.

Application Information:

Academic Title Name of Researcher 1

Academic Title Name of Researcher 2

Academic Title Name of Researcher 3

Affiliation of Researcher 1

Email of Researcher 1

Email 2 of Researcher 1

Phone number of Researcher 1

Note. We must be able to contact you until we receive confirmation of data deletion, so we need both your affiliation and private addresses. Our priority is to contact you via your affiliation, but we also want to avoid costly measures to search for your current and valid address in case you change affiliation. Therefore, we ask that you also provide your private address information.

The data you want to use are from which study?

Study title

Authors

Handle/URL

Type of thesis or dissertation (when applicable)

Master's Degree

Doctorate

Post-doctorate

Scientific field:

STATEMENT

The signatory(ies) of this declaration commit to:

1. Use the provided data exclusively for scientific and research purposes, ensuring that they will not be used for other purposes;
2. Use the data ethically and responsibly, per the principles and guidelines established by research ethics committees and other relevant entities.
3. Not share, distribute, or provide access to the database to unauthorized third parties, preserving the confidentiality and integrity of the data;
4. Protect the privacy and confidentiality of the study participants, ensuring that their identity is not disclosed and that any personal data are treated following applicable data protection laws, namely the European Union's General Data Protection Regulation (GDPR) and Law No. 58/2019, of August 8, in Portugal.
5. Assume responsibility for communicating to the ISMT Repository's Psychology Database* any security breaches, data loss, or other situations that may compromise the privacy and confidentiality of the study participants.
6. Acknowledge and adequately attribute the provenance of the data in any publications, presentations, or reports resulting from the use of these data, indicating the authors and the appropriate reference;
7. Ensure the secure and permanent deletion of the database after the conclusion of the study or research project for which the data were used, per applicable data protection standards

The signatory(ies) understand that failure to comply with these commitments may result in legal and/or academic consequences.
